### **DETAILED ACTION**

The amendment filed 10/2/08 which amends claim 8-16 has been entered. Claims 1-7 and 22-28 were canceled by the amendment filed 11/21/07. Claims 8-21 are under examination.

Claims 8-21 are allowed.

*The following is an examiner's statement of reasons for allowance:*

The rejection of claims 8-21 under 35 U.S.C. 103(a) by Acharya et al. and Nho et al. set forth in the Office action mailed 7/9/08 is withdrawn in light of that the combined reference teachings do not teach or suggest the claim 12 limitation "on average six  $\pm$  one PEG", and in light of that the applicants' argument set forth in the response filed 10/2/08 is persuasive.

The provisional rejection-obviousness type double patenting of claims 8-21 is withdrawn now in accordance with to MPEP 804.I.B.1, "If a 'provisional' nonstatutory obviousness-type double patenting (ODP) rejection is the only rejection remaining in the earlier filed of the two pending applications, while the later-filed application is rejectable on other grounds, the examiner should withdraw that rejection and permit the earlier-filed application to issue as a patent without a terminal disclaimer".

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
